[About the Virtuous Reflexive Usage of (computing A-Selves) Machines]

"We must understand that if the machine enslaves man, it is to the extent that man degrades the machine by making it a slave.

1/3

If, instead of looking for states of hypnosis in the machine, or an easy source of wonder for the ignorant, man associates the machine with states in which he is truly active and creative,

2/3

as is the case in scientific research, the community aspect of the machine can disappear."

- Gilbert Simondon, *Psychic and Collective Individuation*. (p 282, Fr. ed.)

This is an illustration of Scybernethics' Heuristical Ethic.
