[The Organism-Environment Relation: 4 Levels of Complexity]

Right from the Scybernethics Foundries, which are also a loom (🧶🏭) factory , a new pattern matching for the economy of attention: the "Organism/Environment" in 4 progressive levels of complexity. Comments welcome:

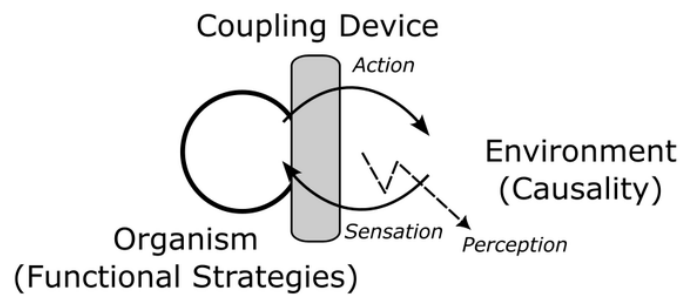

1

The Organism / Environment Relation

*The Organism / Environment Relation
and the Technical Mediation*

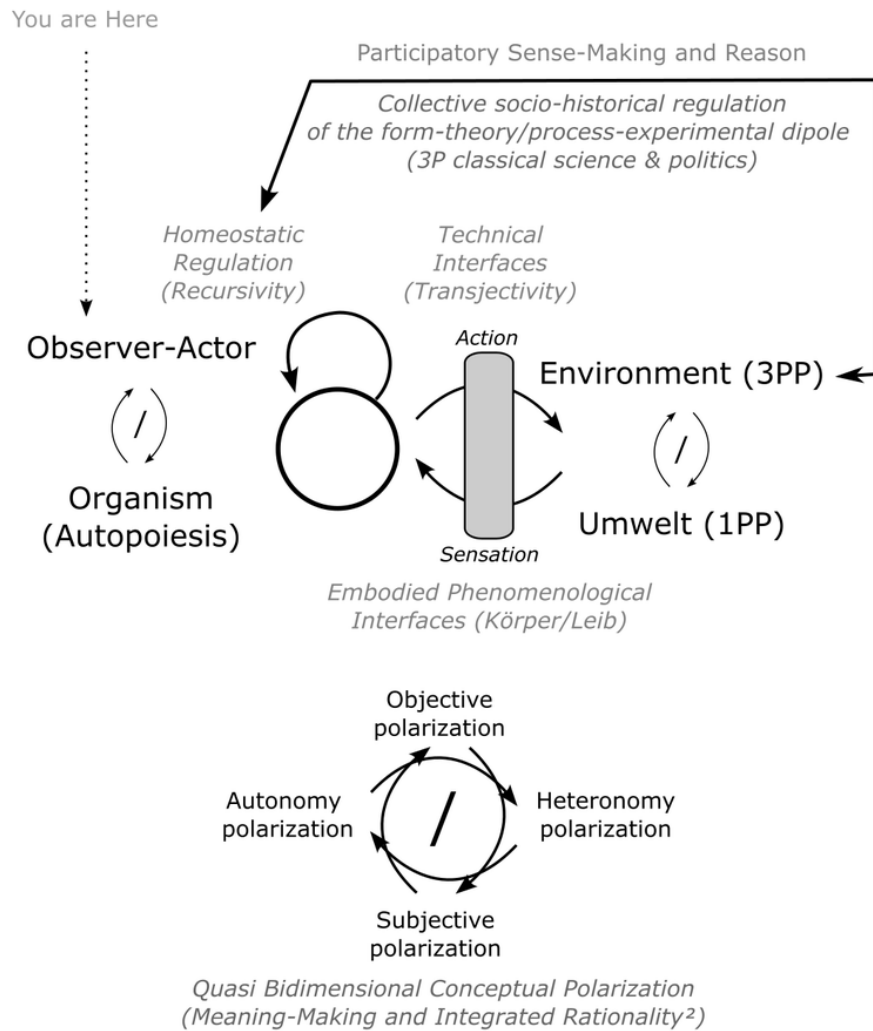

*The Organism / Environment Relation
and the Technical Coupling Device
(Enactivist Style)*

**The Duality of the Living
(3P-Only Reductionist & Cognitivist Perspectives)**

2 A scybernethics perspective²:

**The BidimenTionality of the Living
(1P-3P Extended Perspective² & Regulation²)**

N.B.: BidimenTional Perspective (1PP-3PP Epistemology) = Dual formal scientific & analytical pererspective + Synthetic embodied phenomenological lived experience through hermeneutical circulation and iterative co-determination.
